LOCKING SOLUTIONS

LOCKSMITH DIVISION CASE STUDY

Spec & Fix Locking Solutions demonstrate industry knowledge to secure clients contents and peace of mind...

AT A GLANCE

Challenges

- Keys not present
- Spool pins
- Snap secure 1 star
- Anti-drill pins

Benefits of upgrade

- No damage
- Insurance compliant
- High secure
- Personally registered

Lost my key after a day out, Sean arrived quickly and picked my front door open. Great price. Can't recommend this company enough.

Mr. Edwards

Domestic Customer

Excellent

OBJECTIVES

Our client had misplaced their only key. The lock fitted was 1 star accredited and contained spool pins, snap secure features and anti-drill pins.

SOLUTION

Due to the security features, the only way to gain entry was to pick the lock open. Once opened we made the client aware that their current lock was not insurance approved. The client decided to upgrade their solution to our TS007, 3 star lock and are now fully compliant with their insurance terms.

BENEFITS

Benefit One

picking the lock meant that entry was made non-destructively, ensuring the door was untouched and undamaged.

Benefit Two

The new lock fitted was to TS007, 3 star standard, which meant their property was now covered on their insurance.

Benefit Three

Our solution we provided meant that only they can get keys cut - by ourselves. These can not be copied anywhere else.
