

# LOCKSMITH DIVISION CASE STUDY

Spec & Fix Locking Solutions demonstrate elite locksmithing techniques to defuse a tricky situation...

## AT A GLANCE

### Challenges

- Keys not present
- British Standard Lock
- Hardened Plate
- Extended Bolt

### Benefits

- No damage
- Old keys still worked
- Saved cost of new lock

Would definitely recommend.  
Very friendly and helpful.  
Professional service at a reasonable price.

Domestic Customer

Excellent

## OBJECTIVES

This clients partner had taken a vacation and mistakenly took their only keys away for the weekend, leaving their spouse without a key to their home.

## SOLUTION

Whilst the door was locked, our locksmith took a read of the levers and decoded the lock. They then created a "make up key" which opened the door. From here, we was able to make a new key for the client.

## BENEFITS

### Benefit One

Decoding the lock meant that entry was made non-destructively, ensuring the door was untouched..

### Benefit Two

As keys were made to the lock, the lock was not damaged which meant the old keys were still usable.

### Benefit Three

As the lock was opened without destruction, the client did not need to pay for a replacement lock.
